## **Grace Thomas**

C-Suite, senior executive and high potential emerging leaders in complex global, multi-national and Australian organisations work with Grace so they can be the best they can be in their work, their life and their world.

Her contribution and impact are anchored in her organisational coaching experience working with senior executive leaders and a highly reputable coaching and leadership team effectiveness portfolio. Her clients cover the breadth of industries and governments, including many high-profile household names.

In addition to her coaching credentials, Grace is one of about 15 Reach certified Personal Brand Master Strategists worldwide.

She volunteers with the International Coach Federation (ICF) at the local chapter and global organisational levels, contributing to committees, taskforces and programmes to advance professional coaching.

### **Business Background, Experience and Skills**

Grace understands the complexities leaders face in balancing short and long-term outcomes, corporate and local needs, and present and future orientations in a fast-changing environment. She focuses on simple, practical strategies that deliver tangible and sustainable outcomes.

Her significant corporate experience includes executive leadership roles in Australia, Asia-Pacific and globally with one of the world's largest and most prestigious professional services firms.

### **Approach**

Grace spends time understanding organisational and individual needs, then travels alongside individual leaders and their teams to enhance and accelerate their leadership growth and impact while staying true to who they are.

Grace builds trust quickly and brings 'heat and heart' to her relationships where individuals and teams are challenged to step outside their comfort zone into their courage zone to **explore** deeply how their habits, assumptions and beliefs impact themselves and others. She supports them to **experiment** with more helpful strategies, **extend** those that work and **embed** them. Accelerated and sustained development or transformation happens as a result. Ultimately, these leaders and their teams **empower** others towards high contribution and performance.

### **In a Nutshell**

Grace considers herself a global citizen, born of Chinese heritage, growing up in Malaysia, living in Australia, working and connecting globally - a rich cross-cultural tapestry. She loves family time, enjoys good food and wine experiences and is a mad-keen AFL Geelong Cats supporter – both the game and the leadership culture that builds and sustains high performance and societal impact.

## Recent Client Engagements (a snapshot)
